Home Automation Made Simple!

EMBRACE ENERGY EFFICIENCY

Embrace a new eco friendly lifestyle by conserving energy in the palm of your hands. Never leave your lights on again or have You're a/C working when your not home. With advanced logging capabilities you can track your usage and learn to conserve in those areas to save you money and live a greener lifestyle.

TOTAL HOME CONTROL

Combine all components in your home and make them work for you. Lighting, Shading, HVAC, Security, Irrigation, TELEPORT, Multiroom Audio, Locks, Garage Door Openers and more. EQ5 supports zWAVE RF technology for endless expansion and compatibility.

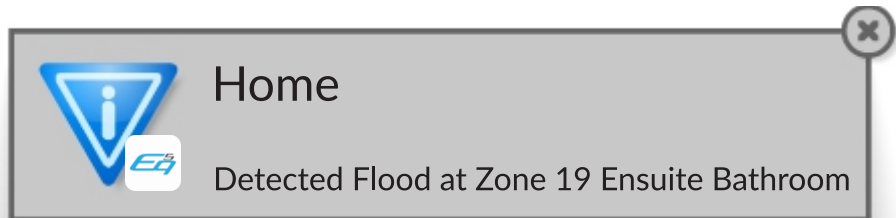

FLEXIBLE RULE ENGINE

Versatility at its best! Rules can be defined across all components to have your home work for you and your lifestyle.

STAY IN THE KNOW WITH PUSH NOTIFICATIONS

Stay informed and in control of your home with push notifications. You can be notified based on any rules that are executed in your home. For example receive a notification when you alarm is disarmed or your garage door is opened.

CONTROL AT YOUR FINGERTIPS

With intuitive apps for Android, iOS and Windows PC you can stay connected to your home anywhere in the world. Enjoy seamless usage across all platforms including our 7 inch touch panel, with no need to relearn UI interaction.

The 7" In-Wall touch panel provides convenience and easy control of your home's services. Control your home's lighting, security, garage thermostat and more from any of the touch panels installed with your EQ5 system.

Installation is easy and makes retrofit even easier only needing two wires for power and maintaining its connectivity with Z-Wave and Wi-Fi technology.

Touch panels can video call one another using its built-in speaker, microphone and 1.3MP front facing camera as well as communicate to your front door with a TELEPORT IP door intercom.

Specifications:

Power Source: 16vAC 1amp

Audio: Stereo Audio

Connectivity: Wi-Fi, Z-Wave

Screen Size 7" Capacitive Touch

Resolution: 1024x600

Dimensions: 9.75"W x 7.25"H x 3.5"D

OS: Android 4.4.2

Versatile Processors

Our versatile processors typically known as "black boxes" offer you versatility with wall mount and rack mount options to suit your installation type. These processors are the only headend equipment required to make your home alive with Eq5!

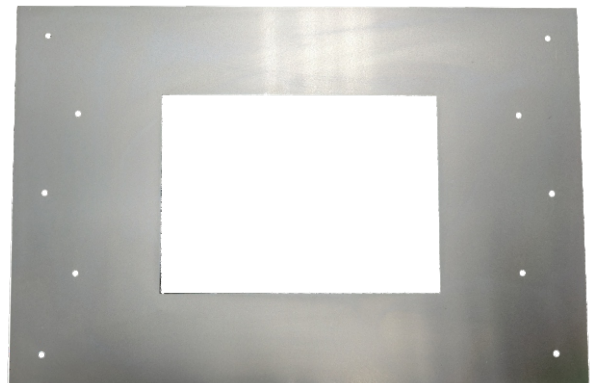

Z-Wave USB Installer (Zongle)

500 Series Z-Wave USB installer with proprietary backup. Keep your system backed up in case of disaster.

New Construction Trim Ring

Get prepared with our new construction ring, made of durable steel for construction longevity.

Z-Wave Lighting Devices

Z-Wave technology is simple: the more Z-Wave products you have in your smart home, the stronger your smart home network. Z-Wave, enables smart home products like locks, lights and thermostats to talk to each other. This creates the backbone of your smart home. Z-Wave's proprietary RF frequency eliminates the chance of interference from other devices and is highly penetrable for all construction types. Its penetrability in combination with its mesh network technology makes it versatile even for those larger scale homes and unique construction material projects.

SAVE YOUR HOME FROM FLOODING

One of the leading causes in household water damage is sink and toilet supply line failure. Integrating flood sensors with your alarm system and EQ5 can save your home from the devastating effects of water damage. Receive instant notification of flood detection and automatically close your homes water supply with a Z-Wave valve in seconds.

SONOS

nexus

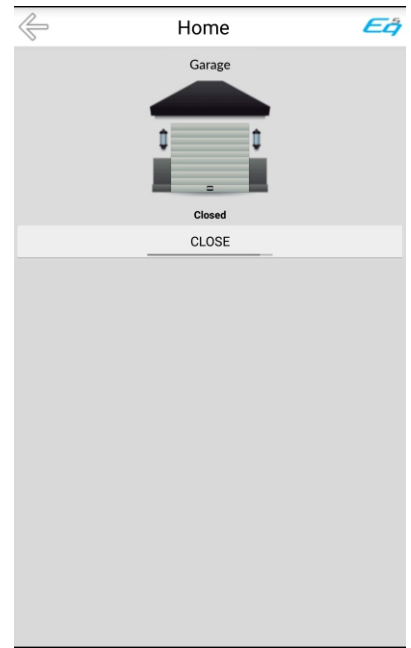

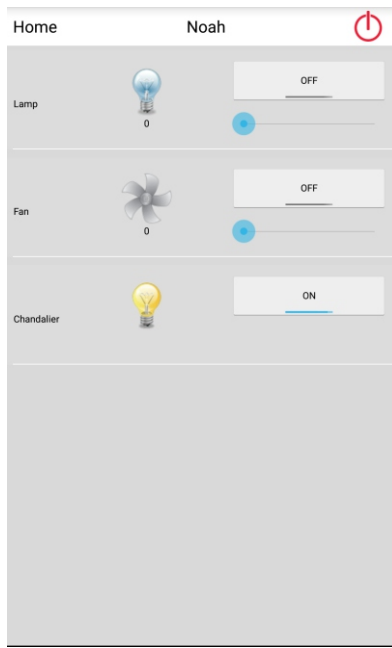

Don't open your *door* to the unknown”

Answer your TELEPORT door station call with ease and convenience from any touch panel installed and provides the ability to unlock your door with conventional door strikes or Z-Wave locks.
